Learning Agreement

Questions?
What is Erasmus+? What does it cost?

- **Exchange program** for students (and staff) to go abroad
- Currently within the **European Union** + a few countries outside the EU: e.g. Switzerland, Norway
- Students get a (small) **scholarship** from the EU to help financing their stay abroad (amount depends on country, 150-270 Euro per month)
- New requirement: obligatory language test **B1 English**
Who can go? When can I go?

- Students can go in B.Sc. and M.Sc. (even both!)
- Your nationality is irrelevant: **Everyone enrolled** as a fulltime student at Universität Stuttgart can get an Erasmus scholarship (no matter which country you come from).
- You can go for **1 semester** or **1 year**.
- We usually have enough places for everyone interested!
- Best semester for going abroad? Not the first, not the last, somewhere in the middle.

How do I apply for Erasmus?

Learning Agreement

Questions?
Part of the application is the Learning Agreement (LA).
- The LA lists all courses you take at the host university.
- You should plan about 15–20 ECTS.
- You can take whichever courses you want.
- The LA is binding and is signed by you, the IMS and the host university.
- It can be changed once after you have arrived at the host university (e.g., if a course does not take place, is incomprehensible for you, etc.)
Getting credits accepted in Stuttgart

- Part of the LA is to specify the acceptance of credits in Stuttgart: course X there = module Y here.
- You need to get your courses **approved** before you go.
- To get approval you should talk to someone who would teach a similar course at IMS.
- The coordinators will check the approvals, then the LA will be signed by the Prüfungsausschussvorsitzender.
- After the stay, when you bring your transcript of records, approved courses will be recognized as equivalent.
- Recommendation: Take complete modules, take electives.
