Important information / study and examination regulations (extract)

(indicative information for students; only the German original document is legally binding; in cases of doubt, please contact S. Anstein; original document: http://www.uni-stuttgart.de/zv/bekanntmachungen/bekanntm_39_2011.pdf)

- maximum study duration: 9 semesters
- courses vs. modules
  - courses are accredited via modules; each course can be counted in only one module
  - course-module mapping:
    IMS course list via C@MPUS (Faculty 5 – Institutes of CS – NLP – Courses), column “SPO”
- module exam registration is obligatory
  - online registration: LSF
  - for modules containing several courses, register in the semester in which you will finish all parts (e.g. for concentration modules)
  - registration only possible during official registration period (as announced by the University: May/June & November/December) – otherwise participation not allowed (screenshot of registrations recommended)
- postponing / repeating exams
  - you can withdraw from an exam until 7 days before the exam takes place (otherwise, a medical certificate is needed as soon as possible in order for the exam not to count as “failed”)
  - failed exams can be repeated once (as soon as possible; re-registration necessary!)
  - a second repetition of a module exam is only allowed in 3 cases in total
  - passed exams cannot be repeated (e.g. to improve the grade)
- a completed “module table” has to be handed in via ILIAS for each semester before your grades will be entered: http://www.ims.uni-stuttgart.de/studium/interessierte/studiengaenge/cl-msc/pruefung.en.html
