

# Instructions

## Expectation-based Ratings

### Judging how well the generated images match with human expectations of verb-noun events

You will be given a two-word event such as "see bird".

**Task 1:** Describe what you would expect to see in an IMAGE for the event. **Provide phrases that describe THIS IMAGINARY IMAGE separated by commas.** Be as descriptive about the image as possible. Please make sure you are describing an image of a scene and not providing an explanation/definition of the event.

---

Event: "take photo"

Answer: "a parent capturing a candid shot of their child's joyous expression, a photo cherishing the innocence and happiness of the child"

---

**Task 2:** Please select those images which you consider to describe the prompt well.

Below you will see an expression describing an event (e.g., "see bird"). You will be shown your previous answer describing this event and 5 groups of images generated by 5 different models.

Tap on those images that you believe suitably describe the event.

---

### "improve health"

Your description:

*Exercise and eating healthy are the best ways to improve health.*

Tap on those images which you consider best to describe the event:
