Official registration for exams/modules

- **binding** registration for modules in C@MPUS: usually open for 3 weeks each semester
- registration is **only** possible during the registration period; otherwise grades and CPs will **not** be entered into C@MPUS (screenshot/download of (de-)registrations recommended; examination office and examination board are very strict about this)
- you also need to register for repetition exams (no automatic registration)
- no need to register for Key Qualification modules now
- no need to register for the Research Module CL (will be done automatically)
- Corona special: also register for exams if you plan to but you’re not sure you’ll be able to attend the exam due to external factors
To keep in mind: de-registering exams/modules

- check the ’exam type’ of the modules in the module description/handbook (via C@MPUS – Search – degree programmes – book icon):
  - **LBP** = *lehrveranstaltungsbegleitende Prüfung* (several tests, presentation, project)
  - **PL** = *Prüfungsleistung* (’real’ exam)
  - **BSL/USL** = *(un)benotete Studienleistung* (’test’; (un)graded)

- you can withdraw from an **LBP** module registration only until the end of the respective registration period

- you can withdraw from a **PL** module registration until 7 days before the respective exam takes place (otherwise, a medical certificate is needed as soon as possible for the exam not to be counted as “failed”)

- you can leave **BSL/USL** module registrations open without consequences
Dropping & repeating exams/modules

- failed examinations can be repeated once (without consequences); re-registration is necessary!
- a second repetition of a module exam (if exam='PL'/'LBP', see module description) is only allowed for 2 modules in total during your BSc studies, 3 for MSc
- if you fail the second written repetition of a module exam (if exam='PL'), there is a last oral exam (only pass/fail)
- 2 failed modules can be dropped (informal declaration with the examination office)

Please note: Any kind of plagiarism can be a reason for failing exams.
For which modules can your courses be used?

#### Exam registration

**Exam Details**
- **No.**: 7238100000
- **Title**: Schulte im Walde S [P]
- **Date**: 19.02.2018
- **Start of Exam**: 10:30
- **End of Exam**: 12:00
- **Registration from**: 15.11.2017 00:00
- **Registrations until**: 30.11.2017 23:59
- **Deregistration until**: 12.02.2018 23:59
- **Exam Mode**: Written
- **Type of Exam**: Subject examination
- **Sem.**: 17W
- **Hrs.**: 0
- **Current No. of Registrations**: 0
- **Max. Registrations**: 9999

**Programme Details**
- **Degree programme**: Computational Linguistics
- **Status within curriculum**: [VK] Methods in Computational Linguistics

**Further Operations**
- Exam planning service
- Exam Venues
  - not specified
- Persons involved
  - Schulte im Walde, Sabine (Examiner)
  - Glaser, Andrea (Responsible person for exam planning/procedure)
  - Show all 3 persons

**Operation**
- Register
- Cancel/Close
Registration in C@MPUS

If there are 2 exams (P), register for both!

STEP 2: Module table / course-module mapping

- some courses can be used in several different modules – your choice
- C@MPUS doesn’t allow (yet) making the link between your course registrations and your exam/module registrations, but we need this mapping for entering your grades
- obviously, each course can be counted only once – we’ll check this before entering your grades and CPs into C@MPUS
Module table / course-module mapping

- for CL students who have started before SS19:
  - a completed “module table” has to be handed in via ILIAS for each semester
  - download module table: https://www.student.uni-stuttgart.de/en/study-programs/Computational-Linguistics-M.Sc-00003./?page=examinations
  - upload in ILIAS until the end of the registration phase: Magazin – Ingenieurwissenschaften – Maschinnelle Sprachverarbeitung / Computational Linguistics – Arbeitsgruppen – MSc CL @ IMS – MSc CL Module Tables

- for CL students who have started after SS19 and for all BSc students:
  - the mapping has to be entered into the course-module mapping table in ILIAS until the end of the registration phase: Magazin – Ingenieurwissenschaften – Maschinnelle Sprachverarbeitung / Computational Linguistics – Arbeitsgruppen – Studying @ IMS – my course-module mapping
Module table for the MSc Computational Linguistics (PO 2017), University of Stuttgart

Last Name, First Name: 
Matriculation no.: 

By uploading this document to ILIAS, I confirm the correctness of this module table and its consistency with the versions I submitted earlier (1 document per semester; include all courses incrementally; in your last semester, 60 elective CPs have to be included). I know that I am not allowed to use any course for more than one module. [Don't list obligatory courses.]

WiSe/SuSe 20__/(20__) Date of this version:

download: http://www.ims.uni-stuttgart.de/studium/interessierte/studiengaenge/cl-msc/pruefung.en.html

obligatory upload (one per semester): ILIAS – Ingenieurwiss. – Masch. Sprachv. / Comp. Ling. – Arbeitsgr. – MSc CL @ IMS – MSc CL Module Tables

[Grades will only be entered in C@MPUS with a correctly uploaded module table.]

p. 2 / 2
Course-module mapping table in ILIAS

In this table, IMS students (all BSc, MSc & MSc CL who have started in SS19 or later) have to indicate which elective courses they used in which modules (only for cases where there is no 1-to-1 mapping, i.e. where the course title is different from the module name). This information is needed to enter your grades and credit points into C@MPUS (there, this information cannot be made explicit).

Your data is only used for internal purposes, see also https://www.uni-stuttgart.de/en/privacy-notice/.

Additional hints

- some students have to fulfill conditions / requirements (Auflagen)
  - check in your original admission letter if yes or no
  - recommended taking the oral exam as soon as possible
  - if you want to do it this semester, register now in C@MPUS for your requirements module
- more information in ILIAS: Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics – Arbeitsgruppen – Auflagenmodul*
- we’ll contact you after the end of the registration period with more organizational details
In case of any individual questions ...

... concerning your studies, please ask:
